WORK EXPERIENCE

Web Developer and Mobile Apps

Calimax

October 2018 to Present

- Tijuana, BC, Mexico

I coded the new generation of software for Calimax, the largest retail company in the state of Baja California, with more than 100 stores and 6000 employees. I used Nodejs for the backend to communicate company services and app suite. I used Angular for the frontend, flutter for native mobile, and sql for stored procedures.

Full Stack Developer

Itimbre

March 2018 to October 2018

- Tijuana, BC, Mexico

I created new and expanded accounting modules for Itimbre, Mexico's SAT certified PAC organization that functions as their IRS. I mostly used PHP, vanilla Javascript and jQuery, but also used Angular and Golang for customer necessity services.

Full Stack Developer

Tijuana

January 2017 to March 2018

Home & Media Products, LLC. - Tijuana, BC. Mexico

I coded from scratch the new version of MyTPM, a multi-platform (i.e. iOS, Windows, Mobile) educational software (tell me more about this software & company). I used golang and nodejs for the backend, and Vue.JS for the frontend. I led a small team in developing 2 desktop versions, one for DVD distribution and another for online.

IT Technical Specialist and Developer

DatacenterSE - Villahermosa, Tabasco

2012 to 2016

Tijuana, BC, Mexico

DatacenterSE is a small, high performance business dedicated to providing data technology solutions, such as pc maintenance and website development to small and medium size businesses. I implemented Odoo ERP in the cloud using Google Cloud Platform with Linux Servers, coding custom modules in Python, Javascript and basic API rest for data exchange with nodejs.

IT Technician

Asesorias Ejecutivas Empresariales - Villahermosa, Tabasco

2006 to 2012

I worked doing maintenance of computers, laptops for clients on site, and in our facilities, I did technical support, physical networks (say more about the company)

EDUCATION

Bachelor's in Systems Computer Engineer

February 2012 to December 2016
